

Big Bang, So Beautiful

(If you don't stop...)

I've been searching for my baby, the one to come and save me
And this you know, she is so beautiful
Ain't never act stuck up or shady, one hundred percent all lady
And this you know, she is so beautiful yo yo

Baby, are you all for me
Baby, my heart is in need
Of a love wanting to cherish the soul
Every day thinking so deep
Every night turning in heat
It is why all this here is happening to me

All the love I can give
All the days we can live
Always and forever now (always and forever)
All the love I can give
All the days we can live
Always and forever now (always and forever)

I've been searching for my baby, the one to come and save me
And this you know, she is so beautiful
Ain't never act stuck up or shady, one hundred percent all lady

Baby now you hold the key
To my heart, baby you see
