Big Bang, Something Special

Did you ever write my name with a fountain pen In your books or on your desk or did you tell your friends
That I was someone special
Did you ever lie awake the entire night
Glowing in the dark with no sheets or light
Thinking that I was someone special
You got me running
running late at night
trying to find you
And I started thinking
thinking all the time
But what could I do

I had something for you Was there something for me I had something to give you But it's a mystery

Did you change your clothes did you hesitate walking back and forth, always being late Cause I was someone special Did you ever take a shower did you wash your face making up the bed thinking just incase That I was someone special You got me running running late at night trying to find you And I started thinking thinking all the time But what could I do

I had something for you Was there something for me I had something to give you But it's a mystery

You got me running running late at night trying to find you And I started thinking thinking all the time But what could I do

I had something for you
Was there something for me
I had something to give you
But it's a mystery
I had something for you
Was there something for me
I had something to give you
But it's a mystery

Something special
