

# Big Bear, Untitled 3

On one, our motives obscured  
Events (just) accidents or fate  
We had no choices, no sight  
On one, we dreamt it, it's done

Our excuse was fate  
Stuck inside our end

Thirteen, our motive laid bare  
Events, consequence/outcome  
We have all choices open  
Thirteen, we choose it, it's real

Now we chose free will
