

Big Business, White Pizazz

Creeping, we're gaining an inch at a time
Can't believe you don't believe me
These consciences they talk to themselves
And the bruises to show

Eyes that are turning completely white
Completely white
Completely white
Completely white

I can't think they're coming back
How can you say without feeling
How can you go when you run out of time

All of the pieces you need
I've got a few you can borrow
Worried the weather tomorrow will bring
Head for the shallow

How can you say without feeling
How can you go when you run out of time

All of the pieces you need
I've got a few you can borrow
Worried the weather tomorrow will bring

Creeping, we're gaining an inch at a time
Can't believe you don't believe me
These consciences they talk to themselves
And the bruises to show

Completely white (X4)

Head for the shallow

All of the pieces you need
I've got a few you can borrow
Worried the weather tomorrow will bring
Head for the shallow

Right, I've got a few you can borrow
Worried the weather tomorrow will bring
