

# Big Country, Chesters Farm

Black cars come and black cars go  
full of secrets you will never know  
tires hiss in the rain be feels through the night?  
shadows move behind the glass, no one worries no one asks  
politions come and go so fast...

I dont mean to do no harm i dont wanna cause alarm  
i try to be cool i try to stay calm  
but something weirds going on at Chesters Farm...

This is the place where the monkeys die  
this is the cage where the mutants fly  
on the wings on a industry funded research lay  
this is where the tests are made  
where are finest minds parade  
upon the planet fools have paid have made...

I dont mean to do no harm i dont wanna cause alarm

i try to be cool i try to stay calm  
but something weirds going on at Chesters Farm...

I dont mean to do no harm i dont wanna cause alarm  
i try to be cool i try to stay calm  
but something weirds going on at Chesters Farm...

Something back and the bugs gone wild  
the biological demon child  
its alive and among us resistance is futial...

I dont mean to do no harm i dont wanna cause alarm  
i try to be cool i try to stay calm  
but something weirds going on at Chesters Farm...

I dont mean to do no harm i dont wanna cause alarm  
i try to be cool i try to stay calm  
but something weirds going on at Chesters Farm...
