

Big Country, I Walk The Wall

Stand up
Hold my hand
I hope you understand
Here where time is still
I walk the hill
Stand here
Close to me
Here for all eternity
I wait as others will
I walk the hill

I held you then
I hold you still
I held you as I always will
And you can have my heart to fill
As I walk the hill

I am not as strong as I am told
Feels to long since I was bold
But you can lie in sheets of gold
If I walk the hill

You touch me and I understand
We only write our names in sand
But I can stand where legends stand
When I walk the hill
