

# Big Country, One In A Million

I believe what I believe  
And hope that I am not deceived  
By little details I receive  
For you know I never look twice

Something far outside of me  
A part of which I could not be  
Things I would not care to see  
I don't have the time for advice  
I don't want to hear your advice

Your one in a million  
That's no lie  
My One In million  
Needs no disguise

If I put my faith in you  
Put everything in place for you  
Have it all replaced by you  
I know that I won't do it twice

Brush your lips across my brow  
Take this fever from me now  
If you know when then I know how  
Then we melt like strawberry ice  
Melt just like strawberry ice

One in a million  
Pleasure and pain  
One in a million

A little sunflower in the rain

One in a million  
Tell me the truth  
Are you one in a million  
Or just some baggage from my youth

There you are  
On and on and on  
Inside my head like a whisper  
There you go  
On and on and on  
Inside my world for a moment

We'll listen to this one  
Here's the proof  
One in a million  
It's not like you're someone that I used

How did we come from that to this  
How did we fill the emptiness  
Where did we learn to cry and kiss  
And melt into strawberry ice  
Melt just like strawberry ice

One in a million  
That's no lie  
My one in a million  
Needs no disguise
