

# Big Day, It's not mystery

When you're flying high  
You're over me  
And rising around  
and around and around  
I call your name  
You're rising down  
And sitting here by my side  
It's not mystery  
It's not mystery  
When you're swimming down  
You're under me  
And rising around  
and around and around  
I call your name  
You're rising high  
And sitting here by my side  
It's not mystery  
It's not mystery  
This is game our minds  
Words over me  
And rising around  
and around and around  
We are calling us  
Flying swimming  
rising like in other lives  
It's not mystery  
It's not mystery
