

# Big Dismal, Just The Same

I don't want to be the one to break you  
But could I please borrow some change  
You see my car's broke down and I need some gasoline  
It's cold out here do you know what I mean  
Did I let you down  
Did I throw away all your expectations  
So I reached in my pocket and I grabbed some change  
I said it's nice to meet you, what's your name  
You look like you could use a friend  
'Cause I'm not like all the rest  
'Cause I know what it's like to be down on your luck  
And you and me we're just the same  
It probably won't make a difference  
But they say you get what you give  
And I feel lucky for the things I have  
'Cause God knows man that ain't no way to live  
Did I let you down  
Did I throw away all your expectations  
I didn't mean to hurt you  
I didn't even stop  
I didn't even give you the time to explain your situation  
I got my own situation  
It's true in a lot of ways  
I'm just like you  
So I reached in my pocket and I grabbed some change  
I said it's nice to meet you, what's your name  
You look like you could use a friend  
I'm not like all the rest  
'Cause I know what it's like to be down on your luck  
And you and me we're just the same
