

# Big Drill Car, Freep

When will the hurt just go away  
I guess it won't so please don't stay  
And I'm wishing it all exit my mind  
I've already wasted too much time  
You feel so alive  
Free to grow and free to thrive  
We had a drink, to the back's we stabbed  
We cleaned the knives and had a laugh  
Did they bleed on the carpets left untold  
Just means that they did not know to get too close  
You feel so alive  
Free to grow and free to thrive  
Now you thought the road would make it all go away  
It reinforces the way it'll stay  
And I'm wishing it all exit my mind  
I've already wasted too much time  
You feel so alive  
Free to grow and free to thrive  
Recall the days, recall the hours  
Raining down like cool, cool showers  
We remember, we remember all of your days  
Before the motel lights and the switch blades  
I'm not buying what you're selling  
It's a trap that we've all fell in  
Did you think that the road would make it all go away  
It reinforces the weight will stay???  
And I'm wishing it all exit my mind  
I've already wasted too much precious time, oh yeah  
You feel so alive  
Free to grow and free to thrive  
Recall the days, recall the hours  
Raining down like cool, cool showers  
Free to call and free to ring  
Sometimes I can not think for myself
