

Big Havi, 9 Times Out Of 10 (feat. Lil Baby)

Nine times out of ten (Nine times ten)
I got niggas I'll probably never see again (Again, again)
No matter the problem, I promise that we gon' win (We gon' win)
First one to switch up the ones you call friends (Got no friends)
Nine times out of ten (Nine times out of ten)
I got niggas I'll probably never see again (Again, again)
No matter the problem, I promise that we gon' win (We gon' win)
First one to switch up the ones you call friends {Baby}
Nine times out of ten

You lost your dawg, you've been through it all, I know how that feel, yeah
Got a hole in my heart, I'm forever scarred, but somehow I still care
Know they thought I would fall, but I'm standin' tall and look at me still here
And whenever I call, my niggas gon' come if they in the wheelchair
Feel like dodgin' the hate, ayy, I'm probably gon' ride in a Charger
Thinking 'bout the mistakes I made, I get in my mode and go harder
If I stay on my pace and stay in this lane, I'll be hotter than lava
I don't know how I did what I did, I'm just thanking the Heavenly Father
I really come from the bottom, could've got shot up, I used to ride on the MARTA
Now it's a Bentley Bentayga, Instagram models, my lil' bitch shaped like a bottle
Runnin' through all them, tearin' these motherfuckin' miles up, I gave 'em drip they can follow
I put 'em all on, 4 Pockets Full, that's the motto, yeah

Nine times out of ten (Nine times ten)
I got niggas I'll probably never see again (Again, again)
No matter the problem, I promise that we gon' win (We gon' win)
First one to switch up the ones you call friends (Got no friends)
Nine times out of ten (Nine times out of ten)

No matter the problem, I promise that we gon' win (We gon' win)
First one to switch up the ones you call friends
Nine times out of ten

'Member them days I was stuck in a drought
'Member I was prayin' to make it out
'Member them times when I felt worthless
Fuck that shit, I done found my purpose
I ain't gon' lie, I was really hurtin'
So I'm sorry if I did you dirty
Got in my bag, a young nigga workin'
I see them watchin', yeah, the fuck niggas lurkin'
Diamonds hittin', go'n and take out the cameras
I'm goin' dumb like I ain't got no manners
I'm plugged in with the finessers and scammers
And shout out my fly goon niggas on camera
They know the name, it's Big Havi
I'm goin' insane, I'm big poppin'
I was the G.O.A.T. in my younger body
When I blow up, I ain't gon' act like I don't know nobody
Life of the party like "La Di Da Di"
Got a couple hearses for a couple verses
This another verse that I done caught a body
Don't do this on purpose, but you can't rehearse it
Havi the G.O.A.T. and you know it, you know it
Hundred different flows and you know, you know it
I ain't lettin' up for nobody
Nine times out of ten, they know it's a good one

Nine times out of ten (Nine times ten)
I got niggas I'll probably never see again (Again, again)
No matter the problem, I promise that we gon' win (We gon' win)
First one to switch up the ones you call friends (Got no friends)
Nine times out of ten (Nine times out of ten)

No matter the problem, I promise that we gon' win (We gon' win)
