Big Head Todd And The Monsters, Beautiful Wor

Seems you let a lot pass you by When you let ambition decide Everything has went up and gone And all your money left you alone

Chorus:

We made a planet, a beautiful world Let love surround it, and give it a whirl I can't understand why it's so hard to keep This beautiful world living and free ...

Time to let the watch unwind Tell your heart to make up your mind We can't wait to give at the end Wasting all the time we can't spend

Chorus

Running after things you don't need Is bound to trip you up with your greed Stop your hand from lifting its load Tell that traveler 'come on home'

Chorus
