

Big Head Todd And The Monsters, Halo

You whisper and you turn me over
Your smile
The winter moon reveals your shoulder
Your eyes
You take me up out of my dream
I'll wake
I hear you say

This is you, I am the world you made
This is you, you are my life and grace
This is you, you're flooding through this hole in my heart

And the day you'll take this over in time
You're the sun that leads me closer to blind
There's your life on my machine (??)
I breathe
I bleed
We pray

This is you, you are my heaven's gate
This is you, you are my life and grace
This is you, you're swimming through this hole in my heart
Hey love, it's up to you to be of my heart
Hey love, it's up to you to be of your heart

This is you, I am the world you made
This is you, you are my life and grace
This is you, you're closing up this hole in my heart
Hey love, it's up to you to hole in my heart
Hey love, it's up to you to hole in my heart
Hey love, it's up to you to be who you are...
