

Big Head Todd And The Monsters, Spanish Highway

We'll never know the reasons
Things have ended up this way
You had to turn the page
But I'm still writing of my love for you
On and on,
On and on

Just one kiss and then you knew
Still you left me without a trace
Where are you tonight?
Do you feel me wanting you,
Desire, makes my heart ache,
Makes my heart ache

Empty runway,
Now I know that there's life after you, over you
Spanish highway, driving back to what belongs to you
Longs for you

The first time that I fell for you
Your eyes read me the book of your heart
Speaking in recurring dreams,
Visions and mysteries of how,
You are my star

Empty runway,
Now I know that there's life after you, over you
Spanish highway, driving back to what belongs to you
Longs for you

Hey now my light is shining on
Every cloud is gone
Hey, everything is singing of your love for me
On and on...

Empty runway,
Now I know that there's life after you, over you
Spanish highway, driving back to what belongs to you
Longs for you
