Big Head Todd And The Monsters, Spanish High

We'll never know the reasons Things have ended up this way You had to turn the page But I'm still writing of my love for you On and on, On and on

Just one kiss and then you knew Still you left me without a trace Where are you tonight? Do you feel me wanting you, Desire, makes my heart ache, Makes my heart ache

Empty runway, Now I know that there's life after you, over you Spanish highway, driving back to what belongs to you Longs for you

The first time that I fell for you Your eyes read me the book of your heart Speaking in recurring dreams, Visions and mysteries of how, You are my star

Empty runway, Now I know that there's life after you, over you Spanish highway, driving back to what belongs to you Longs for you

Hey now my light is shining on Every cloud is gone Hey, everything is singing of your love for me On and on...

Empty runway, Now I know that there's life after you, over you Spanish highway, driving back to what belongs to you Longs for you
