

Big Pun, Laughing At You

[tony sunshine]

Ha ha ha

Do you see me now

You remember me the guy from the back of the class

That used to where the glasses the one you

Used to laugh at look at me now brother do u like fruit

Well I'm chewin your girls nipples

How do you like them apples asshole

Chorus: tony sunshine

Im laughing at you

Im laughing at you now you told me I was ugly

I was scared to crack a smile

Pun: ha ha ha ha ha

Im laughing at you now

Pun ha ha ha ha ha

Im laughing at you

[pun]

600 benz 20 inch rims house on the hill hittin' mad skin

Ha ha ha ha ha ha ha ha ha

It was all a scheme I used to load the teck with the magazine

So I was mean but I still had a scheme

17 years young everything seemed fun

Still considered a veteran cause I feared none

Pun's from the street where there ain't no rules

But carried heat cause he ain't no fool

Aint no wrong for dollars in negative digits

So debted followers and got rid of the quitters

That never forget us cause we've been down since the

Genesis 200 horse power to 400 pegasus

The messages don't sleep till it's over

Next thing you know shorty seven feet

Tippin' over I'm still in the water drownin'

Knights and murder till the immortal terror squad

Threw me a life preserver now I'm ice forever

Stomach bustin' out the white carrera

Life is better now niggas wanna rhyme together

Ay que sera! what can I do but take you to strive

Ay que hago! I hope the streets don't take me alive

You wasted your life and refused the struggle while

I aim for the sky pay dues and bubbles I win!

Chorus

[pun]

Now it's not funny cause I'm hot and got a pot of money

Alot of hunnies around (don't stop do the brown for me)

My every wish is her command call her bitch she understands

I reminisce how she used to dis me and my man

Check part of the plan she told my son I wasn't the man

I ain't gonna to stop till I got a heart in my hand

I can silence the lamb but couldn't silence her cause

She was as wild as a man with a bottle of liquor

I'm not going to hit her I'm gonna debt her tonight

Double platinum now she's one in the tribe well in the ride now

Well in a fly gettin' high now no more whiteout send the cubans

To provide now□it's my world I demand my respect

Give me your girl or get slapped in your neck

Ain't nothin' change I'm still humble and modest

And I'm always proud to admit I came straight from the projects

Hardy har har har

[tony sunshine]

Don't you forget about me now

Don't(4x)

Don't you forget about me now

Dont(4x) naw

Nah nah nah nah....

Nah nah nah nah....

Nah nah nah nah.....nah nah nah nah

(*repeat 2x*)

[tony sunshine]

Don't you forget about me now

I said don't..don't...don't...don't

Chorus
