

Big Pun, You Was Wrong

[Drag-On]
What?
T-S nigga
Y'all don't know?

[Drag-On]
Aiiyo its on, I see how niggas didn't learn
You is wrong, thought the fire didn't burn
Its on, me and Pun ain't from the Bronx
You's wrong, nigga we can get it on

Aiiyo, guns we toss 'em, and bodies we auction
To his family we tell 'em he owed us a fortune
Gimme forty-thou, you can have your child, you don't know
What I had to go through, to clap this clown, check my background
The last nigga to see you bleed, the last nigga to see you breath
The last nigga you wish you shoulda believed
And Drag move quick, blend right into a wall like a brick
The only thing you see before I blow off ya shit is my wrist
"cause my hand the gun is covered in
Not this range, when I pump this pistol, its very rare I miss it
Damn it on ya lips
Y'all keep talkin like y'all teflon with no weap-ons
Nigga I'm pumpin my four, I ain't throwin no more
Nowadays niggas run upstairs, open they drawer
My circumstance, you ain't got that chance mines in my draw, you get it?
Thats means y'all walks for two dicks, so don't be stupid
and make me use one unless you ?that bitch?

[Big Pun]
Aiiyo its one, you thought I was wack
You was wrong, album double plat
Yo its on, stop talkin shit
You was wrong, get off my dick

How dare you doubt on the ???, Big Pun the undoubtable
The only rapper that'll pull out a gun and slap the shit outta you
You can't tell me nothin, I'll clonk you and stomp out ya belly button
I'm too violent for this rap shit, I should be out somewere killin som'thin
Too quick to blast, some niggas talk shit and dash
But I really will KICK YOUR ASS
Juggernaut, I don't care if you a thug or not
I'll get Jamaican on ya ass, boy, with the Bambaclad
On your mark get ready, run, I'm sparkin everyone
The one get locked stand back and watch where you from
How dare you come and try to shit where I eat
F**k you nigga, literally
Dick in your cheeks, you rich in the street
But I'm still gon' hit y'all niggas
because up north you be tossin salads with maple syrup
I know you hate to hear it, but everybody know this one
Why you always gotta be right nigga, why can't you ever be wrong

[Fat Joe]
Now its on, from the Bronx where its at
You was wrong, me and Pun brought it back
Now its on, stay on with the gat
You was wrong, its the Don, Joey Crack

Who the f**k want beef with Joe Crack
Make your body fold back
Lift his soul with the chrome mack
I don't chat on the phone, "cause the phone tapped
You heard theres money on the block we control that

I got the work in the pot where that stove at
Cook it up 'til its wack, get my dough back
You niggas so wack, tryin'a compete
I blind you with heat, I'm the real crime on the street
I die for my peeps, keep an open eye when I sleep
Let you slide when I coulda put five in your Jeep
Who's liver than me? I ain't know you really want it
I'm like Christ, niggas beg for they life when they see me comin
Ain't nobody gonna stop my shine, you out your mind
Don't make me have to cock my nine, pop ya spine
Neva did believe in the Don's
since ninety-two I've been proving that y'all niggas was wrong

[Remi Martin]

Aiyyo, its on, though I'd stay on the block
You was wrong, now Remi on the rock
So its on, thought I wasn't gonna drop
You was wrong, I was right all along

I told these niggas, that I was the sickest bitch
And everytime you spit, I'ma spit some sicker shit
Ridicoulous, I reminise when I blaze the track
Tight shit, make a nigga wanna play ya back
I'm hatin that, but I'ma make 'em all believers
F**k hot, I'ma come and straight drop a fever
Cop a heater, turn around and pop your leader
And for the followers, I'ma leave their heads hollower
Make your wig twisted as if I was Oliver
Layin in a hospital, hooked up the monitors
Thats for the game, y'all lames just came to first
"cause I ain't neva heard a bitch straight flame a verse
I blame the church, how God let you lie like that
Who scribed you for, "cause you ain't neva rhymed like that
How the f**k you gon' tell me that chick is tight
She ain't 'aight "cause she don't write, you wrong

Yeeeeeeeeaaaaaaaaah Baby
