Everybody sing along

Everybody loves this song

I'm a rockstar

I got a spaceship  
Fully equipped  
I'm a cowboy Stevie Wonder

I got a spaceship  
Fully equipped

Green green grass and a rubber Russian bimbo  
No one's got a name or a brain for the scarecrow  
How can he believe what he sees on the TV  
Nothing but extreme over-executed fantasy

Happy dancing feet down the street from the corner  
Some may say he's silly some may say that he's a loner  
How can you explain he's got a name nobody knows it  
Did anybody ever stop and offer him a Prozac

Prozac, Prozac, Pro-oo-oo-oo-oo-oo-oo-oo-zac

Green green grass and a rubber Russian bimbo  
No one's got a name or a brain for the scarecrow  
How can he believe what he sees on the TV  
Nothing but extreme over-executed fantasy

Happy dancing feet down the street from the corner  
Some may say he's silly some may say that he's a loner  
How can you explain he's got a name nobody knows it  
Did anybody ever stop and offer him a Prozac
