

# Big Star, Back Of A Car

She's running on clean power  
She's wound up at the hip  
"Wearing Only Flowers" came in 27 to 1  
I'd love a drink of water  
Take a little kiss  
Find a lovely lady - step inside, take a sip  
Atlanta turn around and love  
Will come back to you  
His elements are shaking  
She's wounded at the wrist  
Person of the hour, the only way she knows how to make it  
I know I'll get over  
Two months maybe less  
I left undiscovered - saw her undress  
Atlanta don't look so surprised  
Sometimes love will make you wise up  
Atlanta close your eyes and I will belong to you
