

# Big Star, Dream Lover

You're a dream lover  
And i'm never gonna let you go  
And there's no other  
Could look as good as you right now  
And you shine like ice  
And glare your eyes  
Won't those daydreams come true

On beale street green  
My wishes visualized  
You're real, so real  
Seen twixt me and you  
And i wake up and shiver  
A lonely quiver  
And i don't know where to look  
Dream lover  
Dream, you're a dream lover  
Play it for me guitarist.
