

# Big Star, Though I Know She Lies

When i look though your eyes  
I tend to get bitter  
Maybe i'm best advised  
To look to myself  
I fall every time  
Though i know she lies  
I can't stay away

Stars would fall from the sky  
And i won't forsake you  
You've got lust in your heart  
What's sad to me  
I'll use every line  
Anything to make you mine  
Keeping me in the dark  
Wondering where you are  
Don't let me fall apart  
You said take it slow  
But i don't know  
I don't know

Lying awake in the bed trying to  
Cope with the feelings  
I'm don't know if it's love  
But what can i do  
I fall every time  
Though i know she lies  
I can't stay away
