

# Big Sugar, If I Had My Way

If I had my way  
If I had my way  
If I had my way  
I would tear this whole building down

Peace came to me  
So I met her in the middle  
I said, "Show who you really are"

Peace came to me  
Like a ringing in my mind  
How did I let it get this far?

If I had my way  
If I had my way  
I would take all your promises  
And just shake 'em all

Peace came to me  
So I made a little wager  
In a minute she can turn you inside-out

If I had my way  
If I had my way  
I would take all your promises  
And just shake 'em all

If I had my way  
If I had my way  
I would take all your promises  
And just sink 'em all

You breathe, and I listen  
You sleep, and I stare  
You awake, and I'm already there  
Already there

Peace came to me  
But I pretended I was sleeping  
Then I woke up and slipped into a dream

If I had my way  
I would take all your promises  
And just shake 'em all, shake 'em all

If I had my way
