

Big Sugar, We Could Live

(G. Johnson/L. T. Benn)

(Oh, man - turn up your radios
This is... Big Sugar)

Two wrongs don't make a right
Me and you don't have a fight
Keepin' love in this family
Me and you got to agree

These wars we have at night
Don't pretend everything is all right
These wars we have at night
Don't pretend - don't pretend

We could live happily
Yes, we could live happily

Two wrongs don't make a right
Me and you got to unite
'Cause now the sky is ever so dark
When it rains, where does it fall?

On your house, the same as mine
Don't pretend everything is fine
On your house, the same as mine
Don't pretend - honey, don't pretend

We could live happily
We could live happily
We could live happily
We could live happily

(Say it again now)

(Big Sugar, in dub - amazing!)
