

Big Tent Revival, Star In The Book Of Life

do you remember the night when you said you was givin it all to Jesus
how you've been in the bondage of sin and then you was ready to cut loose
when you said you wanted to be free
they took you seriously

there's a star by your name in the book of life
angels are watching you all the time
they can't understand why a child of the King
would be happier living with swine
there's a star in the book of life

when are you going to wake up and figure out what you've been doing
I'm going to show you what's going on up there to save your life from ruin
when you said you wanted to be free
they took you seriously

there's a star by your name in the book of life
angels are watching you all the time
they can't understand why a child of the King
would be happier living with swine
there's a star in the book of life

rise up out of the mire
know you all cost desire
come home baby, please come home

there's a star by your name in the book of life
angels are watching you all the time
they can't understand why a child of the King
would be happier living with swine
there's a star in the book of life
there's a star in the book of life
there's a star in the book of life
