

# Big Time Rush, I Know You Know (ft. Cymphonique)

Oh woah  
Oh woah [x2]

Maybe this could be the line  
That starts the whole story  
Maybe you could be the one  
The one who's meant for me  
I know that I should wait  
But what if you're my soulmate?  
Slow down  
Then you say  
Slow down  
'Cause we can

We can  
Party like the weekend  
You got me thinking  
We could be a thing yeah  
I know you know I got  
Your heart thumping  
I know you know we know  
We got something  
We could  
Be on to something so good  
Tell me that you're mine  
I know you know  
You got my heart thumping  
I know you know we know  
We got something

You know this ain't me at all  
I'm usually lost for words  
You know I can't help but fall  
I've never felt so sure  
You got me in a hurry  
But don't you gotta worry  
'Cause I'll slow down  
When you say slow down  
But we can

We can  
Party like the weekend  
You got me thinking  
We could be a thing yeah  
I know you know I got  
Your heart thumping  
I know you know we know  
We got something  
We could  
Be on to something so good  
Tell me that you're mine  
I know you know  
You got my heart thumping  
I know you know we know  
We got something

Right (yeah)  
We're two of a kind  
So let's party like it's '99  
Yeah  
I know you know I got  
Your heart thumping  
I know you know we know  
We got something

Hey baby you drive me crazy  
It ain't about what you done for me lately  
It's all about you  
Know lie it's the truth just wanna say  
I gotta big time crush on you  
I know you know we could be something  
I know you know  
We got something

We can  
Party like the weekend  
You got me thinking  
We could be a thing yeah  
I know you know I got  
Your heart thumping  
I know you know we know  
We got something  
We could  
Be on to something so good  
Tell me that you're mine  
I know you know  
You got my heart thumping  
I know you know we know  
We got something

Right  
We're two of a kind  
So let's party like it's '99  
Yeah  
Yeah I know you know we know  
We got something

Oh woah  
Oh woah

(We got something so right)

Oh woah  
Oh woah
