

# Big Tymers, My Life

(feat. Hot Boys)

[Mannie]

I done teached and talked  
Walked away and fought  
Went from cussin and bustin  
Hustle from day to dark  
Turned nothin to somethin  
Introduced to stunnin  
In my life In my life  
I done caused some hurt  
And I done did some good  
Said I can't even when I could  
I was stopped and tested fingerprinted and arrested  
In my life In my life  
Just say no when I really meant yes  
I'm gon smoke all night til it hurt my chest  
Slim told me over the years that shit gon tear up careers  
In yo life In yo life  
What'chu gon do when snakes come to yo crew  
I'm a get on my knees and ask the Lord please  
Separate good from fake and the love and the hate  
In my life In my life

[B.G.]

I mean fuck I done had a rough life you know what I'm sayin  
B.G. lived that thug life  
I done done it all in my life  
I done done time  
I done lived in group homes  
I been on the third floor of hospitals  
I mean it's just been a struggle for me  
But now I'm on top you know what I'm sayin  
And it ain't to turnin back  
And I take chances in whatever I do  
Cuz if I don't take chances I don't see the life after all

[Mannie]

The night in the Rover  
When the niggas came over  
You went out like a soldier  
And I still can't get over  
What fake bitches done done  
Got me clutchin my gun  
In this life In this life  
I used to wonder why  
All the good niggas die  
Why some soldier gotta suffer  
And mothers gotta cry  
Why my daddie gotta lie  
Cuz he don't even try to be  
In my life In my life  
Take care of your crib  
Where you lay down and live  
Forget and forgive cuz you done put it through some shit  
Had yo daughter and yo son  
Been down since day one  
In yo life In yo life  
What the fuck is wrong you don't understand this song  
Tell yo momma you love her before she dead and gone  
Nigga that don't quit that's some real ass shit  
In this life In this life

[Juvenile]

Man I mean me Juvenile drugs tore my family up  
I'm from the projects so you know I just realized  
What it means to be successful  
Cuz I been through all kinds of shit man bullshit  
And I live through Baby, Slim and the Lord to help me  
And I came to them as a real nigga  
And I said look dog I'm tired of livin like this man
