

Big Wild, Waiting Outside

I'll be waiting for you outside
'Til the sun comes up
I'll be waiting for you outside
'Til the sun comes up
For you for you for you for you
For you for you for you for you
For you for you for you for you
For you for you for you for you

Ooh do you think about me?
When you take-a my ride
Leave me empty inside

Ooh do you think about me?
When you keep me on hush
Looking out for your rush

The air is fresh outside
I'm free to vocalize
No longer holding on so tight

I can dance all I want
And I'll keep moving until I can't see you
Deep inside my rearview mirror

Ooh I'm not broken I'm free
Bite of salt in the breeze
Flip the script, now I tease

Ooh I'm not broken I'm me
I don't need you tonight
Or the rest of my life

The air is fresh outside
I'm free to vocalize
No longer waiting on the side

I will dance all I want
And I'll keep moving until I can't see you
Deep inside my rearview mirror
