

# Big Wreck, Barely Be

Barely be

I raise a fire with you  
Wasting time with you  
When all the things are fine  
Undertold

You raise a fire with me  
After I found some free  
When all the things seem good  
On your side  
Cause after all  
Nothing's big and small  
And you're waste your time  
On me, tonight  
I can barely be  
And I can barely be

You've fall in love with me  
You try to sin today  
Cause there you find  
You'll go down inside

Well there's something wrong  
With you tonight  
There's something wrong with me  
You waste your time  
On me, tonight  
And I can barely be  
You waste your time  
On the moment  
You waste your brought  
On the breath, yeah

You raise the fire with me  
I  
All the things we can find  
Undertold  
And there we find  
You'll go down inside

And there's something wrong  
With you tonight  
And there's something wrong  
With me  
You waste your time  
On me tonight  
And I can barely be  
You waste your time  
On the moment  
You waste your breath  
On my breath
