

Big Wreck, Barely Be

Barely be

I raise a fire with you
Wasting time with you
When all the things are fine
Undertold

You raise a fire with me
After I found some free
When all the things seem good
On your side
Cause after all
Nothing's big and small
And you're waste your time
On me, tonight
I can barely be
And I can barely be

You've fall in love with me
You try to sin today
Cause there you find
You'll go down inside

Well there's something wrong
With you tonight
There's something wrong with me
You waste your time
On me, tonight
And I can barely be
You waste your time
On the moment
You waste your brought
On the breath, yeah

You raise the fire with me
I
All the things we can find
Undertold
And there we find
You'll go down inside

And there's something wrong
With you tonight
And there's something wrong
With me
You waste your time
On me tonight
And I can barely be
You waste your time
On the moment
You waste your breath
On my breath
