Big Wreck, Blown Wide Open

So I'm all surrounded By the things I thought I put away And I'm all surrounded By the things I thought I put away And there's a pile in the closet That's where I threw some yesterday Maybe under the rug That's where I swept some the other day

So the mess is drawing forces Outside I hear them say Just come out with your hands up So we can blow you away And I walk out the door Get blown wide open By the things I put away And I wasn't even warned Just blown wide open Now the mess is where I lay

So I'm all surrounded By the things I thought I put away So I'm all surrounded By the things I thought I put away And if I'm a slob Well I never looked at it that way Irresponsible Well you're not the first to say

But I told her I'm sorry I never wanted it this way Yeah, I still need her But the mess won't go away

And I walk the door Get blown wide open By the things I put away And I'm out on the porch Just blown wide open Now the mess is where I lay

Yeah, blown wide open Blown wide open Blown wide open Blown wide open The gun's still smokin' Blood keeps flowin' Blown wide open Blown wide open While she's going

All surrounded
