Big Wreck, Ladylike

So when she lays down It'll be With me She'll lay down with me

And when she walks out It'll be On me She'll walk out on me

When she kneeling It'll be For me She's kneeling for me

And if I need you to be secure It's cause I'm not You're so ladylike and more

When she focused It'll be On me She's focused on me

And if she walks away It'll be With me She's walking with me

And if I need you to be secure It's cause I'm not You're so ladylike and more

If she wishes It'll be On me She's wishing on me

And when she's hopeless It'll be Lord, she's hopeless with me

And if I need you to be secure It's cause I'm not You're ladylike I need you to be secure if I'm not You're ladylike and more
