

# Big Wu, Take The World By Storm

I learned how to dance the dance in a mystical way  
And how to gather up the clouds on a sunny day  
Now I can't heal the weak, nor teach the dumb to speak  
But I can bring about a storm without delay  
Now God told Noah what he had to do  
The critters came marching up two by two  
Your house don't float, you better build a boat  
I know that magic too

Now if you don't stop your fighting  
I'm gonna strike you all down with lighting  
And make it rain till you wish that you never see another drop  
But it won't stop  
Shut all the windows, and slam the door  
Shut all the windows, and slam the door  
Shut all the windows, and slam the door  
I'm just about set, to take the world by storm

This ancient recipe, it ain't no bust  
You just gotta have the right kind of ancient dust  
Now think real hard before  
Declaring all our war  
Because I can turn your blades of steel to rust  
Ever heard of having water on the brain  
The drip, drip, drip can drive a man insane  
After the flood you'll have Sahara mud  
And the Rocky Mountains will become an island chain

Now if you don't stop your fighting  
I'm gonna strike you all down with lighting  
And make it rain till you wish that you never see another drop  
But it won't stop  
Shut all the windows, and slam the door  
Shut all the windows, and slam the door  
Shut all the windows, and slam the door  
I'm just about set, to take the world by storm  
Take the world by storm  
Take the world by storm

Rain, rain, go away  
Come again some other day  
Rain, rain, go away  
Come again some other day  
Rain, rain, go away  
Come again some other day  
Rain, rain, go away  
Come again some other day
