

# Bilal, Soul Sista

La da, da, da

Hey sister

Verse 1

It's all in her eyes

you and me

Words just disguise

all the things that you be

What is deep

it's deeper than deep

So only it knows

this kind of vibe

gets stronger in time

Won't go on unnoticed

So concrete can't hold this

Hearts filled righteously

Whatever it is

I know that it's real

Long as you know

No complaints

you're all that I feel

CHORUS

Si-sta-soul

(You must be my soulsista, soulsista)

Si-sta-soul

(Hey sis, you must be my soulsista, soulsista)

Si-sta-soul

(Hey sis, you must be my soulsistaaa)

Si-sta-soul

Verse 2

You are so fine

(Like spaces that fall in my soul)

See baby that has no rhyme

Do you like how it feels

when I smoke you out

head down to your toes

Making you scream and shout

You must be my soulsista, soulsista

CHORUS

Si-sta-soul X6

Music...

(Hey baby can I talk to ya)

Can I love you in the right way (Way)

(PLEASE)

Soul

(HOLD)

Baby I want to

(LOVE)

You know baby I want to

(LOVE)

In the right way

(HOLD)

Cause you're my

(SOUL)

Sista, baby you are

(MY)

All I wanna do is

(LOVE)

Fade out
