

# Bill Anderson, Daddy and My Mama and Me

My daddy and my mama and me walkin' on this old burnt ground  
Must be a hundred and three travelin' from town to town

Maybe we can find work today sweatin' in this old hot sun  
Then we can buy something to eat before another day is done  
The harvest has sure been slow the drought hit us hard this year  
But daddy said we'd have to go winter mustn't find us here  
So my daddy and my mama and me packed everything we owned  
Put it in this old suitcase and left the place that we called home  
Now daddy isn't gettin' any younger and mama bless her heart looked so sad  
But we've always been a family with lots of pride  
And thankful for everything that we've had  
So I know that somehow we're gonna make it  
It's gonna take me more than this old drought to stop us you'll see  
I've got a feeling the grass is gonna be greener for my daddy and my mama and me  
My daddy and my mama and me...  
My daddy and my mama and me just my daddy and my mama and me
