

Bill Anderson, Gettin' to Know You

How do you like your eggs in the mornin' how do you like your toast
When you first wake to the silvery dawnin' what do you want the most
Do you want your man to be tender do you want your man to be wild
Do you wanna be treated like a woman or maybe baby like a child
I wanna spend the rest of my life gettin' to know you
I wanna spend the rest of my life gettin' to know you

[guitar]

Had you rather go for a day to the mountains or strolling by the rolling sea
Do you want to raise a house full of children or just live alone with me
Do you want your man to be gentle do you want your man to be rough
Do you want my arms all around you or just a quiet kinda love
I wanna spend the rest of my life...
Do you want your man to be tender...
I wanna spend the rest of my life...
