

# Bill Anderson, Happy State of Mind

Maybe I don't love you quite as much as I believe I love you baby  
But don't tell me cause lovin' you's a happy state of mind  
Maybe I don't need you quite as much as I profess to need you baby  
But don't leave me needin' you's a happy state of mind  
And who's to say anyway that love is not a game we play  
Why's it always gotta be considered a condition of the heart hmm hmm  
As long as I feel warm inside wanted filled and satisfied  
Who am I to be denied this feelin' be it love or be it just a happy state of mind

Maybe it's just something I've imagined in the hours when I'm sleepin'  
But don't wake me cause dreamin's a happy state of mind  
Maybe I just gotta have somebody and you're close and you're somebody  
But don't leave me you've put me in a happy state of mind  
And who's to say anyway...  
You've put me in a happy state of mind lovin' you's a happy state of mind  
Havin' you's a happy state of mind don't take away my happy state of mind
