

Bill Anderson, I Can't Believe That It's All Over

(Ben Peters)

(I can't believe that it's all over baby)
Not after all that we've been through
(I can't believe that you no longer love me)
I never will stop loving you.

I still can't believe it when
I wake up you're not here
I just wander through the house
sit awhile and stare.

Thinkin' about the things that I did wrong
And wonderin' what drives a man to be that way.

I can't say that I'd change everything
Because after all I'm still just a man
The only promise that I could make
Is just to be the best I can.

And I will do the best I can
If you just come home and stay.

(I can't believe that it's all over, baby)
not after all that we've been through
(I can't believe that you no longer love me)
I never will stop loving you.

(I can't believe that it's all over.)...
