I CAN'T SLEEP WITH YOU

I can't sleep with you I can't sleep with you
I can't sleep with you on my mind
Here I lay in bed tossing and turning
The fires of love we once knew are still burning
I'm living with your mem'ry all the time
I can't sleep with you I can't sleep with you
I can't sleep with you on my mind
I've tried everything I know to help my sleeping
But sleep won't come to eyes that burn from weeping
It's funny cause I've never been the crying kind
I can't sleep with you I can't sleep with you
I can't sleep with you on my mind
I have all the empty hours I can stand
Life is nothing to a woman without a love of her sweet man
And it seems like the nights just get longer and longer all the time
Cause I can't sleep with you I can't sleep with you
I can't sleep with you on my mind
