

Bill Anderson, I've Been Loving You Too Long

I've been loving you too long it's time I sang a different song
You've been stringing me along I've been loving you too long
I've been clinging like a vine but I'm gonna take the time
To find where I belong I've been loving you too long

Babe I'm not saying that I've stopped loving you
That it won't be hard to say goodbye

I may never get your lovin' out of my head but I'm just saying that I've gotta try

I've been loving you too long...

[dobro]

No one owns another one and that's what you try
You tried to own me body mind and soul

Love to you's a oneway street all coming your way
But always givin's gettin' kind of gold

I've been loving you too long...
