

Bill Anderson, Let Me Whisper Darling One More

Let me whisper darling one more time let the soft curves of your body cling to mine
Let me feel you through and through I can't get enough of you
Let me whisper darling one more time

Everytime I hold you it gets harder to let you go and get you off my mind
Stay with me and let me take you farther and higher than you've ever dared to climb
And I know you've got somebody else and I know you've got to go but before you do
Let me whisper darling...
The night's almost over but I'm not ready to let you go
Please let me whisper darling one more time
