

# Bill Anderson, Roller Coaster Ride

Ever since I met you you run me like a flag up and down the pole  
You taught me into choppin' all the wood for your fire  
Then kicked me out to sleep in the cold  
I gave all the love that I knew how to give I stood faithfully by your side  
I thought that you were takin' me straight up to heaven  
But Lord it's been a roller coaster ride  
And the preacher should've said did you wanna take a roller coaster ride  
Cause that's all it's been since the day that you became my blushin' bride  
Happiness becomes and then goes like the changin' of the tide  
In and out up and down around and around lovin' you's a roller coaster ride

I no sooner think that I've got things the way they oughta be then wham there you go Puttin' down v  
I'm lookin' kinda gizzy cause you've got me kinda dizzy  
And just about to lose my crazy mind  
I knew love was often a merry-go-round but with you it's like a roller coaster ride  
And the preacher should've said...  
Lovin' you's a roller coaster ride
