Bill Anderson, Together We're One

(Martin Greene - Jim Weed)

What good is my life If I don't have you 'Cause all of my dreams Are built around you.

I'd be like Miami without any sun Without you I'm nothing Without you I'm nothing Together we're one.

The roar of Niagara When you are near Turns into a drip When you disappear.

Imagine a party
Without any fun
Without you I'm nothing
Without you I'm nothing
Together we're one

When I'm happy Oh, it tickles me too When I'm crying You know it hurts me Through and through.

It takes two hands
To make one hole
I belong to you, baby
Body and soul.

If you ever leave me And you don't come back I'd be like a train Without a railroad track.

Just like a river
With a no place to run
Without you I'm nothing
Without you I'm nothing
Together we're one.

When I'm happy
Oh, it tickles me too
When I'm crying
You know it hurts me
Through and through...
