

Bill Anderson, Us

I can't ever go back to the little cafe
With the candle light
That was our cafe and to go there without you
Wouldn't seem right
Besides I don't want to touch that part of life
That meant so much
The days the world belonged to us just us

And I'd telephone at three in the morning
Just to say hello
And all sleepy eyed you breathed and sighed
I love you so
And sometimes we just talked for hours
Dreaming dreams and building towers
All the world was filled with flowers for us

And I'm gonna miss you for a long long time

I can't ever go back to the cabin there
On the mountain side
Where I built a fire and held you close
While it snowed outside
And remember you let me sleep all day
So we could love the night away
Oh it just find yesterday and us

I've tried making new friends
Walking new streets and finding new thrills
But nothing new replaces you and it never will
I'll just live my life in memory grateful you once loved me
Thankful that there used to be an us
And I'm gonna miss you for a long long time
