Bill Anderson, Wild Weekend

(Bill Anderson)

Got the alarm clock set for seven Got the taxi called for nine Plane takes off at eleven and I gotta be there on time.

Told the boss I was going to my mother's Told mama I was gonna see a friend Don't want no one to know I'm slippin' Out of town on a wild weekend.

Gonna have a wild weekend Gonna have a wild weekend With the pretty little blond haired blue eyed darling Gonna have a wild weekend.

--- Instrumental ---

Well, we might go up to the mountains We might go down to the sea Somewhere off from the big wide world Just my baby and me.

Baby's gonna cook me breakfast Baby's gonna tuck me in Baby's gonna warm my cold, cold lips With kisses on a wild weekend.

Gonna have a wild weekend Gonna have a wild weekend With the pretty little blond haired blue eyed darling Gonna have a wild weekend.

--- Instrumental ---

I guess we'll talk about the future Make a lotta plans and stuff Mostly though we're just gonna sit by the fire And make a lotta love.

Every man oughta try it Least one time in his life Just get away on a wild weekend Like I'm gonna do with my wife.

Gonna have a wild weekend Gonna have a wild weekend With the pretty little mother of my two children Gonna have a wild weekend...
