

Bill Anderson, You and Your Sweet Love

I wish you only knew all the days I've made it through
Because of you and your sweet love
I wish that I could count the times peace and comfort filled my mind
Because of you and your sweet love
You're what keeps me going the sun that lights my sky
The rose that blooms in winter the rain that cools July
Never try to tell me it wasn't God above that sent me you and your sweet love
[fiddle]
Almost every night it seems you come walking through my dreams
Precious you and your sweet love
And tonight though we're apart there's a fullness in my heart
Thanks to you and your sweet love
You're the rock I cling to the star I wish upon
The water in my desert the anchor in my storm
Never try to tell me it wasn't God above that sent me you and your sweet love
He sent me you and your sweet love
