Bill Anderson, You and Your Sweet Love

I wish you only knew all the days I've made it through

Because of you and your sweet love

I wish that I could count the times peace and comfort filled my mind

Because of you and your sweet love

You're what keeps me going the sun that lights my sky

The rose that blooms in winter the rain that cools July

Never try to tell me it wasn't God above that sent me you and your sweet love [fiddle]

Almost every night it seems you come walking through my dreams

Precious you and your sweet love

And tonight though we're apart there's a fullness in my heart

Thanks to you and your sweet love

You're the rock I cling to the star I wish upon

The water in my desert the anchor in my storm

Never try to tell me it wasn't God above that sent me you and your sweet love

He sent me you and your sweet love
