

# Bill Miller, No One Else But You

I've seen a thousand starry nights  
Caught glimpse of the moon  
Romantic words by candlelight  
They ended all too soon

All these roads that I've been down  
And the faces that I've seen  
I made my way from town to town  
One step behind my dreams

And I've seen the way  
Hearts can go astray  
And the damage it can do  
And my mind's made up  
That no matter what  
No one else will do  
No one else but you

Sometimes fools will rush right in  
And promises are made  
But like whispers in the wind  
Their words just fade away

And so on and on we go  
Till someone comes along  
Who can make this half seem whole  
And make this heart beat strong

'Cause I've seen the way  
Hearts can go astray  
And the damage they can do  
But my mind's made up  
That no matter what  
No one else will do  
No one else but you
