

Bill Monroe & His Bluegrass Boys, Is The Blue Moon

Is the blue moon still shinin''
Does it shine for you like it shines for me
Will the blue moon bring us back together
Or will it leave us with a sad memory

Do we think of each other when the moon is blue
Do you need me as I need you
Will you ever come back and love me
Or tell me are we really through

At night when the blue moon is shinin''
I think of you and the plans we made
But now you've gone and left me
Left me alone and so afraid

* Refrain

Now I wonder is the blue moon still shinin''
Shinin'' for you as it does for me
Are you too proud to come back
Or did you really want to be free

* Refrain
