

# Bill Nye, Can't Eat This

PICK UP THE FOOD!

PICK UP THE FOOD!

Food in your face, gotta get some  
Eatin' and drinkin' is good  
Keep you goin', go on have a snack  
Carbos, fiber, fat  
What you eat, what a treat  
Come on gulp it down  
Eatin' what you want, healthy combos now  
Growin' stronger with my body's juice  
Keep eatin' it up  
So turn me loose  
Internal organs called intestine  
Helps out with digestion  
Food, bring my food  
I'm talkin' bout the stuff I ain't ate yet  
It's hard to believe that I might have to heave  
In my gut goin' down I just gotta leave  
By mixing all these foods we make fuel  
That we use  
To keep us goin'  
Pushin' meat, fruit and wheat  
Endlessly digestion keeps the flow complete  
So here's the word that I heard  
If you heft you might cramp  
And the fat that goes along with that

Digestion
