

Bill Nye, Diggin'

Oh yeah
We're diggin'
We got no need to dig real fast,
We're diggin', diggin'
We dig to learn about the past.

Archeology is a serious study
Of people who have long since lived,
Archeologists are irregular scientists
Who spend their time outside all day.

We're diggin'
We're digging in the heat and the cold.
We're diggin', diggin'
I hope that we find something old
